“ He was my podiatrist. He always made me feel at ease and smile. He knew what he was doing and eased my pain. Thank you Dr. Merrell. You will truly be missed.

“ Tim, you were my closest in age cousin, I have such fond memories of you spending time on Grannie Merrell's farm and the years you spent in Key West! Remembering the boating years and the giant sailfish you caught!

Thankfully you are free from suffering now, but I will miss your tender spirit even though it had been years since I had seen you.

“ I will be honest i did not know him that well. But you were my pawpaw. But this is what i do remember how he was a man that was serious yet always funny, patient but allways encouraging. From sitting in your lap watching santa clause
3. To your pool that we would swim in together, the smell of wood everytime i walked in your house from your mini trampoline i would always jump on to your candy dispenser in your kitchen. Walking up and down your basment stair and you telling me to put on shoes so I would not step on a nail. Watching you play pool and being on the boat together with me eating chips. And everytime i saw you you would always give me something. From going to your office and watching you be the great docter you were. To the last time i saw you with picture of me when i was late next to your bed. But I will oddly rember most of all is your smell it was like a mature of herbs that still today is my favorite scent and from time to time i wil smell it out of the blue and I always have and will continue to think of you when I do
